Reason for Allowance

The following is a statement of reasons for allowable subject matter:

The inclusions of the claimed invention are not found in the prior art.

The difference is considered patentable over prior art. Claims 1-8 recites the limitation in the combination of sensing said test pattern with said optical scanner by moving said optical scanner across said print medium in a scanning direction and scanning a substantial width of said test pattern in a single pass of said optical scanner; determining whether any of said ink ejection elements contains at least one defect based on said sensed test pattern; and calibrating said ink ejection elements determined to contain said at least one defeat. The claim combination reflects an improvement in the filed of endeavor and over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
